

Xingfa Group, a world leader in the specialty phosphates industry, provides the highest level of stability when it comes to quality, supply, and predictable cost of phosphates, giving you peace of mind.

Food & Beverage

Xingfa offers customized specialty ingredients to the food and beverage industry to meet ever-changing consumer demand. Our diverse portfolio includes innovative and custom solutions.

- Meat, Poultry & Seafood
- Baking
- Dairy
- Beverage

Agriculture

Xingfa is dedicated to creating high-quality products for growers to combat natural resource scarcity, fluctuations in market prices, and difficulty in weed prevention to help supply food to an ever-growing hungry planet, including:

- Herbicides
- Fertilizers
- Synthesis

Pharma & Nutrition

We believe that people need nutritious and safe food and medicine. Our product portfolio of pharmaceutical-grade raw materials and nutrients provides high-quality options.

- Supplements
- Active Pharmaceutical Ingredients (APIs)

Industrial Specialties

Xingfa is a raw material producer for many prominent global enterprises. We strive to provide innovative product solutions for a wide variety of applications, including:

- Oil & Gas
- Water Treatment
- Flame Retardants
- Electronic Chemicals
- Nickel Plating

XPEDITE YOUR R&D WITH CUSTOM COMPOUNDS

In addition to offering specific products for each of these industries, Xingfa can create custom compounds based on your specific needs. Our team of innovative food scientists, fully equipped with state-of-the-art laboratories, is ready to help you solve your most difficult challenges.

XPERTISE YOU CAN COUNT ON

Xingfa is dedicated to quality of service and the distribution of specialty phosphates. With a focus on food and beverage, metal finishing, and petroleum industries, as well as offering technical and pharmaceutical grade ingredients, we actively address each one of our customers' needs in a wide variety of applications and industries.

Xingfa is one of the largest producers of specialty phosphate products in the world, Hubei Xingfa Chemicals Group Co. Ltd., based in Yichang, China (>\$2 billion). Xingfa USA was established as an American corporation in 2010 and currently operates from its North America headquarters in the Chicago area.

Xingfa's unique ability to supply top-quality products, coupled with a strong commitment to provide the best customer service, creates fulfilling and lasting business relationships.

THE POWER OF X

Xtreme reliability

For more than 30 years, Xingfa has optimized its vertically integrated operations to successfully develop, produce, and market phosphorus-based fine chemicals to more than 50 countries around the globe. Our team of more than 10,000 employees takes pride in delivering unmatched control of raw materials across food and beverage, agriculture, pharma and nutrition, and industrial markets — from our operations to yours.

Xceptional quality

Our superior audit results and industry certifications, including ISO9001, ISO14001, ISO18000, ISO22000, NSF International, KOSHER, HALAL, and BRC, confirms Xingfa's adherence to the highest manufacturing standards. We are pleased to accommodate our customers' audit requirements.

Xcellence in sustainability

Our commitment to sustainable energy not only makes us a green leader for the industry, but also provides cost control for our partners. We own and operate more than 30 hydroelectric stations that generate up to 50% of our annual energy requirements. Not only do we offer reliable phosphates supply, but we also deliver peace of mind that our products have been produced ethically and responsibly.
